U.S. Patent and Trademark Office PTOL-326 (Rev. 1-04) Application/Control Number: 10/657,090 Page 2

Art Unit: 1732

DETAILED ACTION

- 1. Claim 1 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, the claim does not read properly, especially line 3. Applicant is suggested to draft the claim with language that can be found in the specification on Page 3, line 11+. In claim 5, applicant's recitation of "...comprises any on of SUS steel, SLA steel, STPL steel" is indefinite. Applicant should not use abbreviation in defining the particular steel being use. Applicant is also suggested to use Markush language "...selected from the group consisting of A, B, C and D" when defining the type of steel used.
- 2. Claims 2-4 and 6-28 are objected as being dependent upon a rejected base claim.
- 3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619

Application/Control Number: 10/657,090 Page 3

Art Unit: 1732

(CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claim 1 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of copending Application No. 10/720,537. Although the conflicting claims are not identical, they are not patentably distinct from each other because both of the inventions are drawn to a method of casting a film, stripping a film and drying and cooling a film. The difference between the instant case and the '537 is in the instant applicant cooling takes place at -10°C which is more specific than lower than zero degrees centigrade. The recitation of lower than zero degrees can obviously read on -10°C or lower.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Application/Control Number: 10/657,090 Page 4

Art Unit: 1732

5. With a timely filed and properly executed Terminal Disclaimer this application would be in condition for allowance.

- 6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Topolkareb et al. teach a method of casting a film using temperatures lower than zero degrees centigrade, but does not teach the dope with the polymer and solvent as claimed.
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Lechert Jr. whose telephone number is 571-272-1203. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on 571-272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
